Chennai, Tamilnadu | diswanthkumar.ch@gmail.com | 7550269672 | Portfolio | Linkedin | Github

## Career objective

---

Full-Stack Developer skilled in building high-performance, scalable, and user-focused web applications using React.js, JavaScript, Java, Python, and MySQL. Experienced in developing high-volume, low-latency components and contributing to all phases of the software development lifecycle—including design, coding, testing, deployment, and optimization. Passionate about writing clean, testable, and efficient code while continuously improving systems through research, architecture discussions, and modern development practices. Seeking to grow in full-stack and backend engineering roles across Chennai, Salem, Coimbatore, Tirunelveli, and Madurai.

## Technical skills

---

**Web technologies & Languages:** HTML, CSS, JavaScript, Bootstrap, React.js, Vite, Tailwind CSS, Java, Python

**Tools & Platforms:** Git, GitHub, Visual Studio Code, Vercel, Netlify, MySQL, MongoDB

**Core Competencies :** SDLC, OOP, Clean Code, Debugging, Testing, Responsive UI Development, Problem Solving, Version Control

## Internship

---

### Python Developer Intern – Polenza Tech Solutions (*On-site*)

- Built responsive UI pages with modern web technologies.
- Developed backend logic using Flask and integrated REST APIs
- Participated in testing, troubleshooting, and improving performance.

### Web Development Intern – CodSoft (*Remote*)

- Built portfolio, calculator, and landing page applications.
- Ensured responsiveness and cross-browser compatibility.
- Utilized Git/GitHub for version control.

## Education

---

### Bachelor of Computer Applications (BCA)

Agurchand Manmull Jain College | 2021 - 2024

## Projects

---

### Amazon Deals Finder UI

Github | Live

- Built a responsive interface that displays curated Amazon product deals.
- Used global state management and dynamic routing for fluid UI behavior.

### Watch Yo

Github | Live

- Movie browsing app with detailed pages, clean UI, and engaging user experience.

### Translator Pro

Github | Live

- Multilingual text translator with secure login and efficient API workflow.
- Designed smooth UI and backend logic for fast translations.

## Certifications

---

- **IBM** - Web Development Fundamentals
- **Guru Tech** - Basic Python Full-Stack
- **Green Technologies** - Java Full-Stack Development
